

TS 2c Meeting Summary		
Meeting Date:	7/30/2014	
Items approved by the TS for Subcommittee Ballot:		
Standard Designation	Summary of Proposed Changes	Subcommittee Only or Concurrent?
T30	Recommendations for the use of mechanical washing devices	Concurrent
T30	Recommendation for putting in the maximum limit on overloading a 12-inch sieve in Note 7.	Concurrent
T319	Improved definition for "constant mass"	Concurrent
TP XYZ-01, Determining the Interlayer Shear Strength of Asphalt Pavement Layers	Proposed provisional standard	Concurrent
TP XYZ-02, Determining the Tack Coat Quality of Asphalt Pavement in the Field or Laboratory	Proposed provisional standard	Concurrent
T209	WAQTC overhaul of the method	Concurrent
T209	Update on figure showing recommended setup	potentially editorial (Chair will review)
AASHTO T XX (TM 8), In-Place Density of Bituminous Mixes by Nuclear Methods	Proposed provisional standard	Concurrent
AASHTO T XX (TM 11), Sampling Hot-Mix Asphalt (HMA) After Compaction (Obtaining Cores)	Proposed provisional standard (change to asphalt r	Concurrent
New Task Forces Formed: None		
Task Force Name	Summary of Task	Names of TF Members
Research Liaison:	Allen Myers	
Other Action Items:		
Allen will organize a conference call to discuss how to handle Rick Kreider's information on the vibratory frequencies of for Gmm. Also, changes will be discussed regarding the figures for the recommended setup proposed by Alaska and WAQTC.		
Allen will look into whether or not the TF on T 331 needs to continue.		
Allen will put together a conference call on T 324 for sample preparation issues.		
The research proposal from Oregon on T 209 will be put forward as a 20-7 project.		
Using infrared spectroscopy as non-destructive procedure to measure oxidation in RAP will be put forward once it is in AASHTO format as a provisional standard by Delmar Salomon.		
The following standards will need to be reconfirmed: M 17, R 59, T 37, T 110, T 168, T 195, and TP 72.
