

TS 4d Meeting Summary

Meeting Date: 29-Jul-14

Items approved by the TS for Subcommittee Ballot:

Standard Designation	Summary of Proposed Changes	Subcommittee Only or Concurrent?
M 30	Eliminate Class 1.	SOM
M 268	Modify Section 5.17.2: Transparent color and opaque black electronic cutting films shall be acrylic, unless otherwise specified or allowed by the user.	SOM
M281	Motion passed to keep M 281 as is and not adopt new ASTM version of A 702.	TS Ballot
MP 12-04	Ballot for full standard	SOM

New Task Forces Formed:

Task Force Name	Summary of Task	Names of TF Members

Research Liaison: Colin Franco

Other Action Items:

Action Item: Selection of Sign Sheeting Materials (Proposed 20-7 statement) – Colin will send it to the tech section for review and asks that it be returned by mid-August. After the comments are collected, the comments will be followed up on individually. Bill Bailey recommends submitting it separately as a 20-7. It is also recommended that it be submitted as both a 20-7 and a full NCHRP problem statement. Clarification is requested on what the guide will cover. The guide is supposed to explain the different types of sheeting and what situations each type should be used. These will not be requirements, merely a guide for engineers to use. There are concerns that the guide might be used as a legal document by manufacturers to force states to change their own specifications. It is clarified that this document should only include references the AASHTO standards.
