Other Action Items:

Gina Ahlstrom (FHWA) has contacted researchers regarding PP 65 who wrote the standard to see what the reasoning is for the current limits. She has not yet heard back and plans to follow-up so that we can have some kind of suggested revisions.

The chairman will follow up with Mr. Miller regarding an email received regarding T260 to get clarification on his concerns. It was suggested that a note be added to Section 4 referring to the procedure for preparation of the methyl orange indicator. The chairman will determine if this editorial change would satisfy Mr. Miller's concerns.

AASHTO staff (Matt Bluman) will send out a Doodle poll regarding a webinar in late September to further discuss the presentation by Anol Mukhopadhyay and Cecil Jones on a Simplified Method to Predict the Potential Alkali-Silica Reaction. Mr. Jones and Dr. Muhopadhyay and TS members will be included on the doodle poll to determine availability. Also include Sejal Barot from Maryland DOT in Doodle Poll

As per Chairman, please add Chris Abadie (Louisiana) to TS roster. As per Chairman, add Jesus A Sandoval-Gil, PhD, P.E. as member (ADOT). As per chairman, add Eric Carleton from NPCA a Friend of the TS.
