

TS 2a Meeting Summary

Meeting Date:	March 18, 2014	
Items approved by the TS for Subcommittee Ballot:		
Standard Designation	Summary of Proposed Changes	Subcommittee Only or Concurrent?
T78	Graduated cylinders will be added to the standard.	
T59	Several changes were made to this standard. T59 will go through ballot again with the proposed changes in place (one negative still needs to be resolved). A tech section ballot will be put together to include these changes, please notify Ron Horner of any additional changes.	
T72	Pertinent information from this standard was placed into T59 (Saybolt Viscosity) in order to make T59 a standalone standard for running viscosity on emulsions.	
New Task Forces Formed		
Task Force Name	Summary of Task	Names of TF Members
Other Action Items		
<ul style="list-style-type: none"> Colin Franco (RI) will have something to report to the committee from his task force regarding the 6 provisional standards by May. Brian Johnson (AASHTO) along with help from North Dakota will create a sample conditioning table for T59. Florida is overhauling their emulsion specification with help from producers. Tanya Nash will send an update on what they are doing. Arkansas's negative vote on T59 still needs to be resolved, hopefully the T59 changes can be incorporated in 2015. A tech section ballot of T59 will be put together to include several of the discussed changes. Any additional comments should go to Ron Horner (ND).
