NTPEP Auditing Program

NTPEP Auditing Program for Manufacturers of Reinforcing Steel Bar and HDPE Thermoplastic Pipe

The auditing program is a cooperative effort between two AASHTO programs: the National Transportation Product Evaluation Program (NTPEP) and the AASHTO Materials Reference Laboratory (AMRL). The objective of the program is to provide a method for evaluating a manufacturer's production process and ability to consistently produce quality products.

The NTPEP Auditing Program was developed with input from the state Departments of Transportation and the manufacturing industry. Oversight is provided by the applicable NTPEP Project Panels.

The program is run by full-time, dedicated, and independent staff. Specifier and consumer bodies can save their resources and rely on this comprehensive, national auditing program to identify qualified producers.

**National
Transportation
Product
Evaluation
Program**

An AMRL/NTPEP Audit consists of:

- A review of quality documents
 - Current AASHTO and ASTM standards
 - Training and competency evaluation records
 - Quality Management System (Quality Manual)
 - Equipment calibration records
- Personnel Interviews
- Product Traceability from Yard Inspection
- Sample/Yard Inspection and Production Line Walkthrough
- Quality Control Testing

For more information about the AMRL/NTPEP Program
log on to www.amrl.net or
contact Kathryn Koretz of AMRL at (301) 975-8970

We Need You – You Need You

- ◎ The following states have already observed HDPE Pipe Audits:
 - ◎ Georgia
 - ◎ Texas
 - ◎ Utah
 - ◎ Oregon
 - ◎ Alabama
 - ◎ Indiana
 - ◎ Wisconsin
 - ◎ Iowa
 - ◎ Minnesota

Mercury Update

- ⦿ Need to be more proactive
- ⦿ Need to discuss the words that are starting to be balloted

Another ebay Treasure

- Here is a great coffee cup from **AASHTO-TEXAS**. One side of the cup says "**AASHTO-TE**", "**San Antonio, TX**", "**June '98**". The other side has a great red Texas logo, with **Welcome to Texas** in blue. The cup is white inside & out, and almost 3 3/4 inches tall, with a diameter of about 3 inches, excluding the handle. The bottom says "Made in China/Headwind". Cup is in mint condition; it does not appear to have ever been used. **I have shown both sides of the cup in this photo; there is only one cup.**
